01 WHO WE ARE

"We are who we are because of who we were"

Founded over 30 years ago, The Hillery Group have become leaders in the community through employment, offering staff healthy flexible working hours and providing a safe workplace as well as promoting well-being. We strive to give everyone an equal chance to a safe and healthy life and a rewarding career that they can enjoy locally. The best of both worlds.

OUR VISION

Our vision is to connect with the people of the Whitsunday's and forge partnerships within this region and beyond that are fulfilling, profitable and beneficial to all. We lead with optimism and so it's critical to Hillery Group that our customers have a compelling experience regardless of the product or service being provided. We want to accelerate the business with our staff and community and become an inspiring business on all levels.

Reputation	every moment matters.
Respect	our team, our clients, each other.
Family / Community	it's who we are, past and future.
Accountability	we stand by what we do.
Integrity	it's how we operate.

02 HISTORY

1976

A memorable year for local mechanic Jamee Hillery. With the purchase of his first truck, he was now in business, contracting to the Local Shire Councils.

1985

Nine years later in partnership with Janice, Bowen Earthmoving was established with local earthmoving and water infrastructure services offered to the local community.

1995

The company grew to include construction and maintenance of haul and service roads, pipe laying, dam construction, haulage, general mining, water supply and labour hire. An expansion into quarrying followed with the acquisition of leases to Abbot Point, Gordon's and Umina quarries.

2019

Fast forward to 2019 where Jamee and Janice's vision is now reality and sons Luke and Liam are guiding Hillery Group through a process of renewal. Understanding customer needs led to the introduction of next generation quality management systems and infrastructure whilst workplace modernisation is enabling continuous improvement to service delivery targets and expansion of capabilities.

2022

Whilst becoming one of the most significant employers in the region, Luke and Liam remain committed to a value-based culture promoting family, respect, responsibility, fairness, honesty and environmental stewardship.

03 OUR CAPABILITIES

QUARRIES

Major project material supply
High-capacity, high quality production
Material transport and logistics
Identifying and legitimising quarry sources
Stockpile management
Drill and blast
Crushing and screening

CIVIL

Bulk earthworks and haulage
Water management structures and diversions
Drainage and dam construction
Environmental spill remediation
Topsoil stripping and vegetation clearing
Rehabilitation works
Civil construction
Disaster recovery walls

PLANT HIRE

Extensive modern fleet of machinery
Fully equipped maintenance capabilities
Mobile crushing and screening
Competent, experienced licensed operators

04 QUARRY SUPPLY

Hillery Group is widely recognised for our expertise in all areas of quarrying, processing and delivery of natural resource material.

Hillery Group currently operate five quarries in Bowen, Collinsville and Abbot Point, alongside a decomposed granite pit and sand reserve. The quarry products available from our operations include all formation materials, road construction materials, aggregates and rock for engineering purposes and natural sands, projects essential to building and maintaining our modern communities.

We use premium quality raw materials in all of our mixes and can provide different percentages, tailored to our clients' requirements. The final products are produced in customer specified lot sizes and tested ready for distribution to the principal job site, delivered to either roadway or stockpile.

SITE / RAW MATERIAL	Armour	Flood (300 - 600ml)	Rip Rap (150 - 300ml)	Gabion (80-150ml)	Environmental Rock	Ballast (class A & B)	Road Bases	Type 1,2 & 3 Pavement Materials	Concrete Aggregates (20mm & 10mm)	Cover Aggregates (16,14 & 10mm)	Stemming	Crusher Dust	Select Fill	Drainage Rock	Controlled Fill	Fine & Course concrete sand
Bootooloo Deco Pit *Decomposed Granite*													✓		✓	
Don River Sand Reserve *Course & Fine Sand Deposit*																✓
Gordons Quarry *Micro-granodiorite & Gneiss* (acid igneous / metamorphic)	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	
Umina Quarry *Latite* (intermediate igneous)	✓	✓	✓	✓	✓	✓	✓	type 2 & 3	✓	✓	✓	✓	✓	✓	✓	
Abbot Point Quarry *Reded Granite & Meta-Gabbro Basalt* (Deco Granite / Metamorphic)	✓	✓	✓	✓	✓	✓	✓	type 2 & 3	✓	✓		✓	✓	✓	✓

SAFETY RULES

08 SAFTEY

The Hillery Group is intent on compliance with both the spirit and letter of the law for all matters relating to Workplace Health and Safety. Hillery Group considers business activities (what we do), products (what we produce) and services (supports our activities and products) that we have control or influence over of which can impact the organisation / companies WH&S performance. The Hillery Group will identify and manage operational issues (internally / externally), interested parties, the boundaries and applicability within the scope of our safety operation.

We provide a framework for the effective management of health and safety that prevents injury and illness. The overarching mechanism to prevent injury and illness is to identify hazards, assess risks to health and safety, and develop and implement control measures which use the hierarchy of control method to eliminate hazards from the workplace or isolate people from the hazard.

Our Safety Health Environment Management System (SHEMS) encourages personal responsibility towards safety and the environment and we invest in our employees with robust training programs
